More Eyes have it!

Eyes have it! 

1. Clinique Colour Surge Eye Duo

Clinique has excelled with this lushious eyeshadow. The texture is creamy and goes on like a dream and comes with an excellent brush for easy application of this fab eyeshadow. Comes in a groovy little silver box with quite a good mirror inside the lid so applying on the go is a breeze with this product. The Clinique range is really extensive so you're bound to find some great colours for winter that will suit any outfit!

RRP Singles: \$33; Duos: \$40 Stockists: 1800 061 326

2. Nvey Eye Pack

This eye pack is really cute and amazingly practical! There are five colours in the eye shadow palette but the best thing is that each colour can be converted to an eye liner in a few simple steps. Simply add a few drops of the Nvey Eye Definition liquid to your eye liner brush and dab a small amount of the eye shadow onto the brush then start lining from the inner lid. Slowly draw the line with the brush as close to the eyelashes as possible but don't try to apply the liquid liner in one sweep! Small strokes along the lid allow you to remain in control for the perfect line. You won't find any better all in one kit than this one!

RRP Eye Definition \$26.95, RRP Eye Liner Brush \$24, RRP Nvey Creative Eye Colour System \$45
Stockists: (03) 9663 3005
